E-KART CHAMPIONSHIP

As we all know pandemic is having bad impact on motorsports too. All the schedules of on ground competition are postponed. We had a thought of a virtual platform for students where they can showcase their work and also a helping hand for entry level students to motorsports.

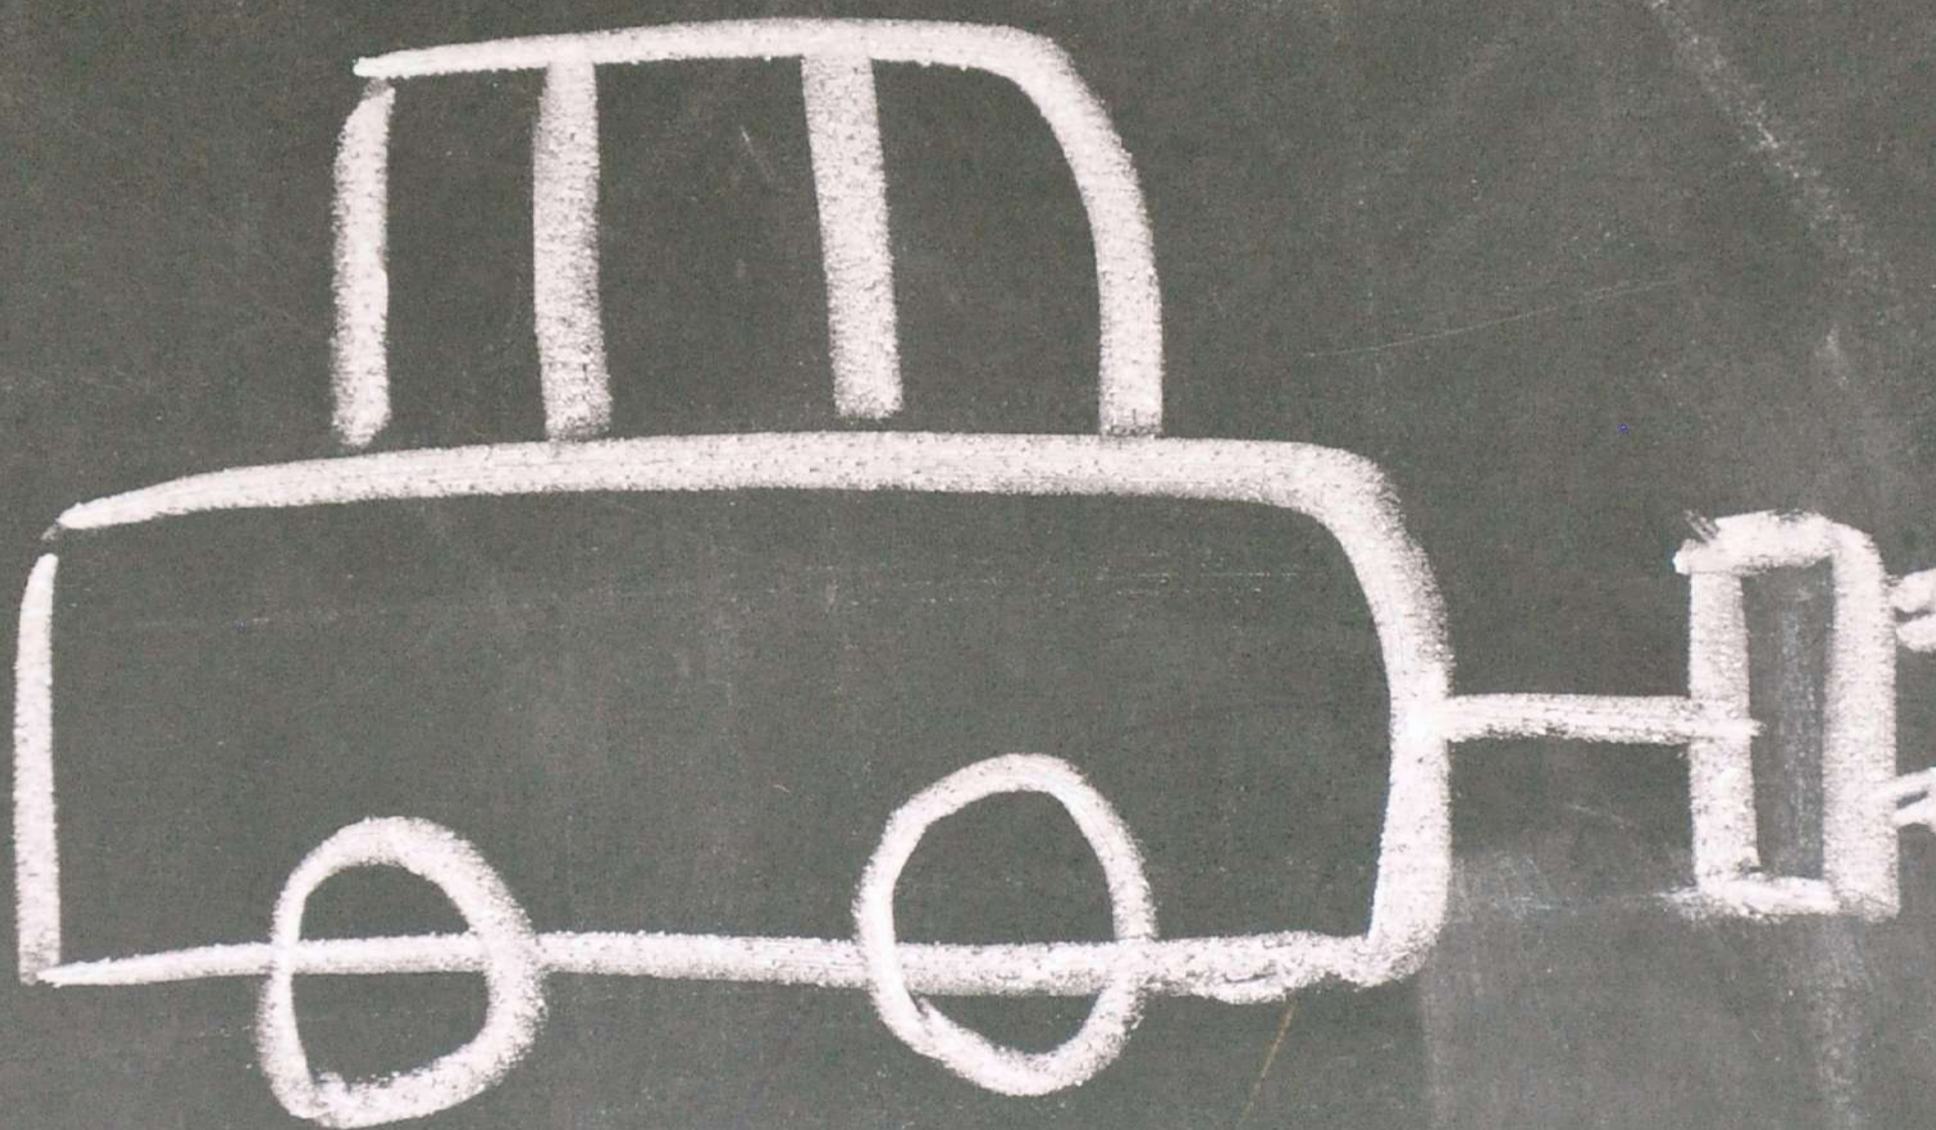

We, at Edgeline refines students' knowledge with experienced mentors and industrial expertise. So, that the student will reach to their next level of performance.

It might seem a virtual event for ordinary person, but it is way far from what it looks. Only people with passion, enthusiasm and hard work oriented mind-set can see the rising star of success within themselves.
